EDUCATION

BSC Honors in Forestry & Environmental Science,
Shahjalal University of Science and Technology

SKILLS

- Python (Pandas, Numpy, Matplotlib, Seaborn, Plotly)
- Machine Learning (Linear Regression, Classification-Logistic Regression, Scikit-learn)
- SQL
- PostgreSQL
- Power Bi
- MS Excel
- Analytical Skill
- Language: English, Bengali, Hindi, Urdu

EXPERIENCE

I have 1 year experience on scientific research in SUST. I have conducted predictive analysis on forest condition.

Summary

I am an expert over 2 years of experience in collecting, cleaning, and analyzing large datasets to extract meaningful insights and contributed to developing reports and dashboards to visualize key performance indicators. I have conducted exploratory data analysis using Python, SQL, Power BI, and Excel to identify trends and patterns for business optimization. I can work in various fields including business, research, healthcare, weather, criminal justice, science, government data etc. Please check my portfolio: <https://github.com/SHAKIL-The-Analyst/All-Projects.git>

PROJECTS

Python projects:

- Superstore sales analysis with hypothesis testing
- Hotel booking analysis
- Popular diagnostic center analysis
- Amazon sales analysis
- Diwali sales analysis
- Supermarket sales analysis
- IMDB movie rating analysis

Machine Learning Projects:

- Ecommerce clients prediction with linear regression
- Global forest insights 1990-2020, FAO(linear regression)
- Breast cancer detection project using logistic regression
- Titanic disaster survival using logistic regression

SQL Projects:

- Music store analysis
- Pizza hut sales analysis
- Northwind sales data analysis
- —
- —

Power Bi Projects:

- Human resource analytics
- Madhav ecommerce sales dashboard
- Papollo healthcare analysis
- Superstore sales dashboard

Excel Projects:

- Bike sales data analysis
- Coffee orders analysis
- Coffee shop sales dashboard
- Vrinda store data analysis & report
